Sabre Travel Network and TravelCLICK Launch Enhancement to *Hotel Spotlight*

New Precision Path Analytical Tool Now Available

SOUTHLAKE, TX and CHICAGO (November 1, 2005) – Sabre Travel Network, a Sabre Holdings company, and TravelCLICK, the leading provider of e-commerce solutions for hotels, today announced the launch of *Precision Path*, an online analytical tool available free of charge to *Hotel Spotlight* hotel subscribers. *Precision Path* represents a significant milestone in hotel distribution analytics as it specifies for participating hotels the exact shopping and booking path travel agents have taken to search and select hotels within the Sabre global distribution system (GDS).

The *Hotel Spotlight* program enables hotel subscribers to gain prominent positioning generally found at or near the top of the GDS hotel availability display for agents. *SabreConnected* agents benefit from the program's requirement that participating hotels provide agents access to all their rates, including Web rates.

Unlike the data from static Internet search engines, *Precision Path* offers *Hotel Spotlight* subscribers dynamically benchmarked performance metrics. Information is market code specific and offers precise decision support regarding a hotels preferred placement opportunity and conversion. The tool also includes benchmarking metrics that enable market code subscriber and non-subscriber comparison.

"Sabre and TravelCLICK worked closely together for over eighteen months. The result is an easy-to-read analytical tool enabling maximum hotel performance within the largest GDS channel."

"We know from experience that the *Hotel Spotlight* program drives additional revenues to participants. The addition of the *Precision Path* analytical tool delivers even more value because it provides transparency into how agents use Sabre, allowing participating hotels more insight as to how *Spotlight* works for them." said Greg Webb, Senior Vice President of Marketing for Sabre Travel Network.
